Go Hard or Go Home!

Ancient war customs are fascinating! There were so many theories and rules that kings and generals used to make sure their countries were ready for war. They would get tattoos, piercings, have bonfires, and do whatever it took to unify their group before they headed into battle. They were **fully committed** and dedicated to compete for the greater purpose of their group no matter how it would affect them.

God also wants us to be fully committed. His army on this earth of people who fight for His purposes should be stronger than any earthly army that has ever fought. Throughout God's word He always made sure that His warriors and soldiers were committed before battle. He instructed His officers to make sure His soldiers were nothing less than fully committed. It is just like the age old saying "go hard, or go home," because God isn't interested in half effort. He wants all we have, every day, in everything! As we begin this tournament, play for Him today, He gave His all for you and changed the world in 3 days! What will we do with our three days down here?

Deuteronomy 20:18

Then the officers shall add, "Is any man afraid or fainthearted? Let him go home so that his brothers will not become disheartened too."
